Claims 1-2, 7-15 are again rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for a composition of matter comprising hydroxylansoprazole, does not reasonably provide enablement for using hydroxylansoprazole to treat ulcers,. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to use the invention commensurate in scope with these claims. Inatomi (CA115:21996) lines 9-21 discloses that hydroxylansoprazole does not inhibit acid formation or have antiulcer effects. Applicant's argument that regarding the synthesis of hydroxylansoprazole and making tablets containing it is not persuasive, since they have not presented any data that shows that it is effective to treat ulcers.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
